

OPERATION MEDICAL LIBRARIES

Operation Medical Libraries (OML) is now supporting the medical efforts of Landstuhl Regional Medical Center, located in Germany. There is a need for a trauma library, which will directly benefit injured American and Coalition troops. OML will create this library through donations of textbooks on trauma, reconstructive surgery, and orthopedics, with the actual publication date of less than 5 years from today. Due to space limitations, please do not send paper journals. All donations will be sent to the library and not a particular POC. The APO address is as follows:

LRMC
CMR 402
ATTN: Medical Library
APO AE 09180

For information on Operation Medical Libraries and shipping logistics,
visit the OML Website: <http://opmedlibs.medalumni.ucla.edu>

To read OML stories from the home front to the front lines,
